## Liberate unleashed realize-meditate

One has to practice meditation to the level of liberating himself(soul) from his body. Once this is unlocked, one can realize what it is like going through a soul transformation, and he can realize the consciousness of his soul and body without the intervention of his mind, and so on.

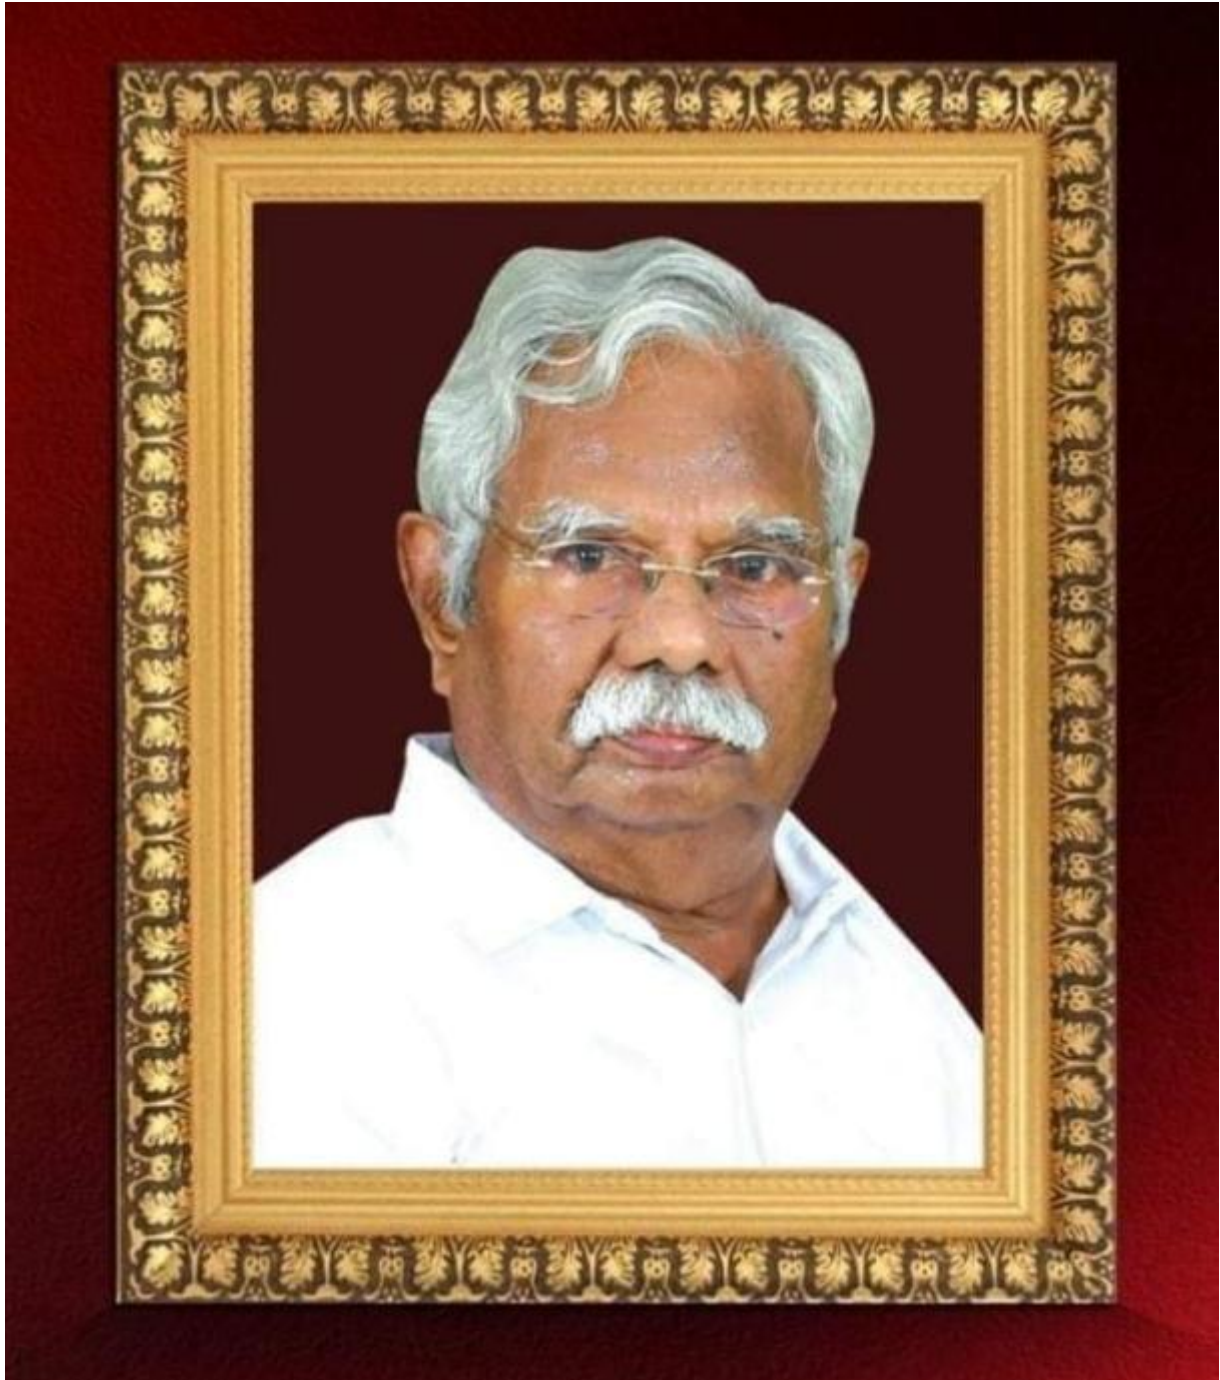

The Alchemy of Personal Transformation:

## vulnerability and conducive

the finale of this blogging activity is coming to an "end of life" situation as it seems the only advisor(God Himself) as usual disappeared for a while or so we cannot see Him in the natural environment and so on...

ever to wonder about nature as it appears to be strange and altering itself for the sake of good to the human being that poses a danger by way of emitting poisonous gases and substances threatening the existence of living on earth...

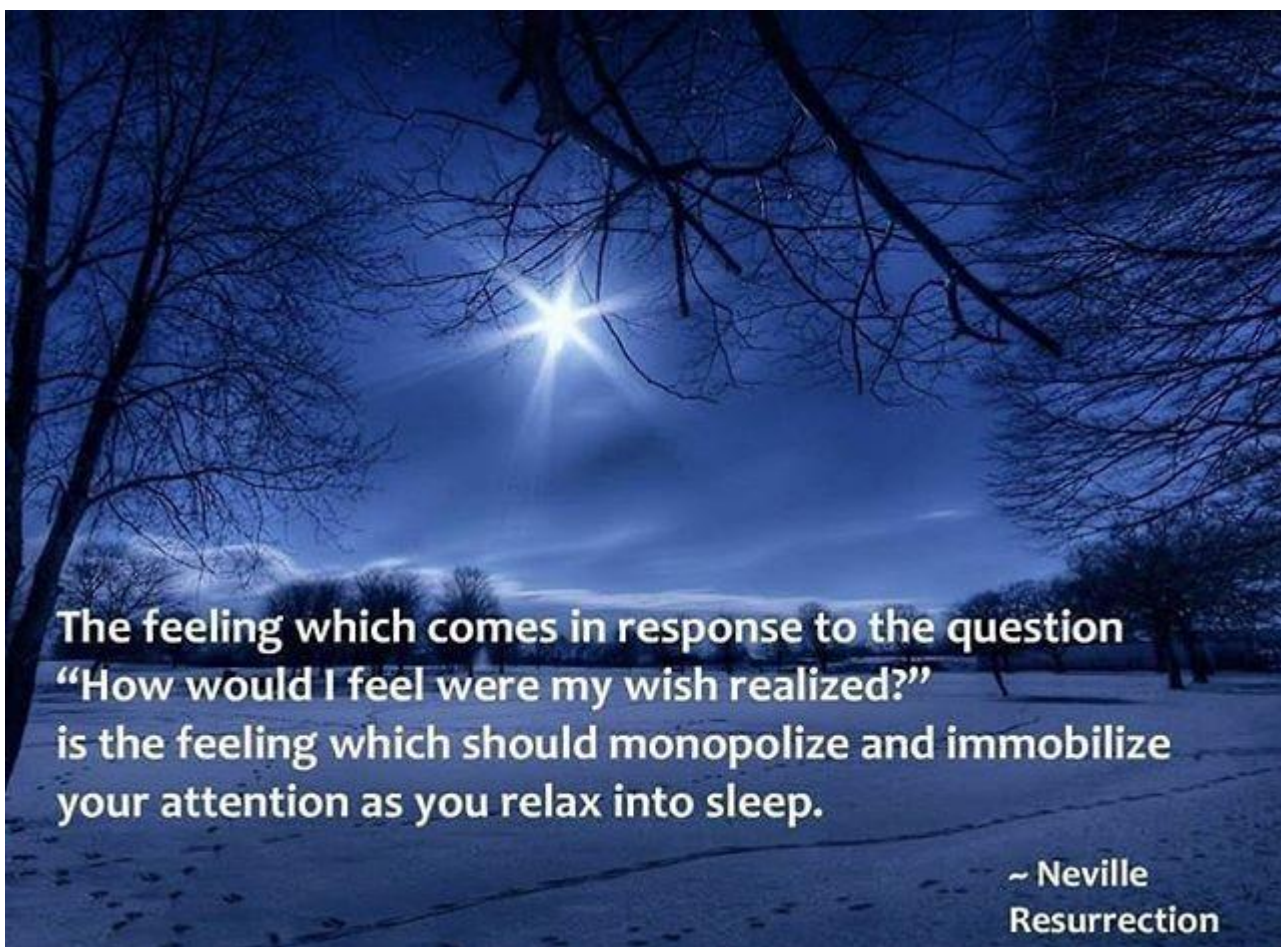

as ever felt it is the feeling(energy or frequency or vibration) out of which one gets the motivation to be able to do anything and it is felt that the feeling is only known to the Almighty whoever cares for us and so on...

whenever one feels ill/in bad health, it should be remembered that he should take enough rest in bed and the volatility of his existence disappear only the fruits of his existence might sprout out to show the well/good feelings and so on...

sending enough data to the cosmic means a lot of effort and surrendering with the minimal energy to spend in the day shows no mercy on humiliation so that one goes far from the very fact of the nature manifesting all through the worlds or regions or galaxies or

Planets...

unawareness of the unconditional emotional intelligence leads to vulnerability and conduciveness owing to the very fact of the nature of human beings brought and cultivated in a multi-dimensional environment say in different nature attributable to the various conditions existing in multiple worlds or regions or galaxies or planets...

**The feeling which comes in response to the question  
“How would I feel were my wish realized?”  
is the feeling which should monopolize and immobilize  
your attention as you relax into sleep.**

## necessity is the mother of invention

furious, adverse, heartburning, granularity, junky, painful-inside, no-in-depth-knowledge only-on-surface-wisdom, very loosened, etc.

Whether one needs it or not the fate of every karma in life has to be born by oneself owing to the nature of things happening due to the Maya and Leela will effect anyway and so on...

many a time we get carried away by words uttered either by intense feeling or innocence feeling for that one has to be careful and watchful of such a situation to get over the feelings and somehow manage and so on...

## ஓடு தேடு விடாதே பிடி

Chase and search until you find what you want to attain, that might mean some common means but the search is on and going to obtain some fruits in the time left out and so on...

/-8-/

## self-centric self-motive self-achiever

what the Maya can do for human development and knowledge that is abundant and everywhere which is unknown to human sight maybe it will show its quality through a mirror effect in the future and so on...

enter into a world of self-wisdom and self-knowledge and self-efforts put into work all the time without a break since the time known to self and it is because of nothing that is going to remain in this world and beyond because of selfish nature and beyond .....

/-9-/

## ஊர்தி யுக்தி ஊக்கி

we need to have a vehicle to travel both mind and physically so said it is ultimately your sense of power to gather ideas to fill all over the world or beyond and more to reach a point that is our aim naturally to gain the sense of power we need to have an ignitor and so on.

/-10-/

## பாவ மன்னிப்பு விமோச்சனம் எதற்கும்

One can pardon for anything as there is always a way out or unleased from the sin or cause of anything because everything is owing to the will and wish of God, devoting time and effort whether seen or unseen by the ordinary means...

We get great sensibility when reaching God's feet because one gives up due to age and other unknown factors...

/-11-/

## Forgive forever to relinquish

one might forgive a blunder or mistake forever so that it might be brought to light to reflect the true face of the problem or blunder mistaken at will and wish by the Almighty Himself devoting time and effort to correct the blunder and might be forgotten in the future owing to the nature of things happening and so on...

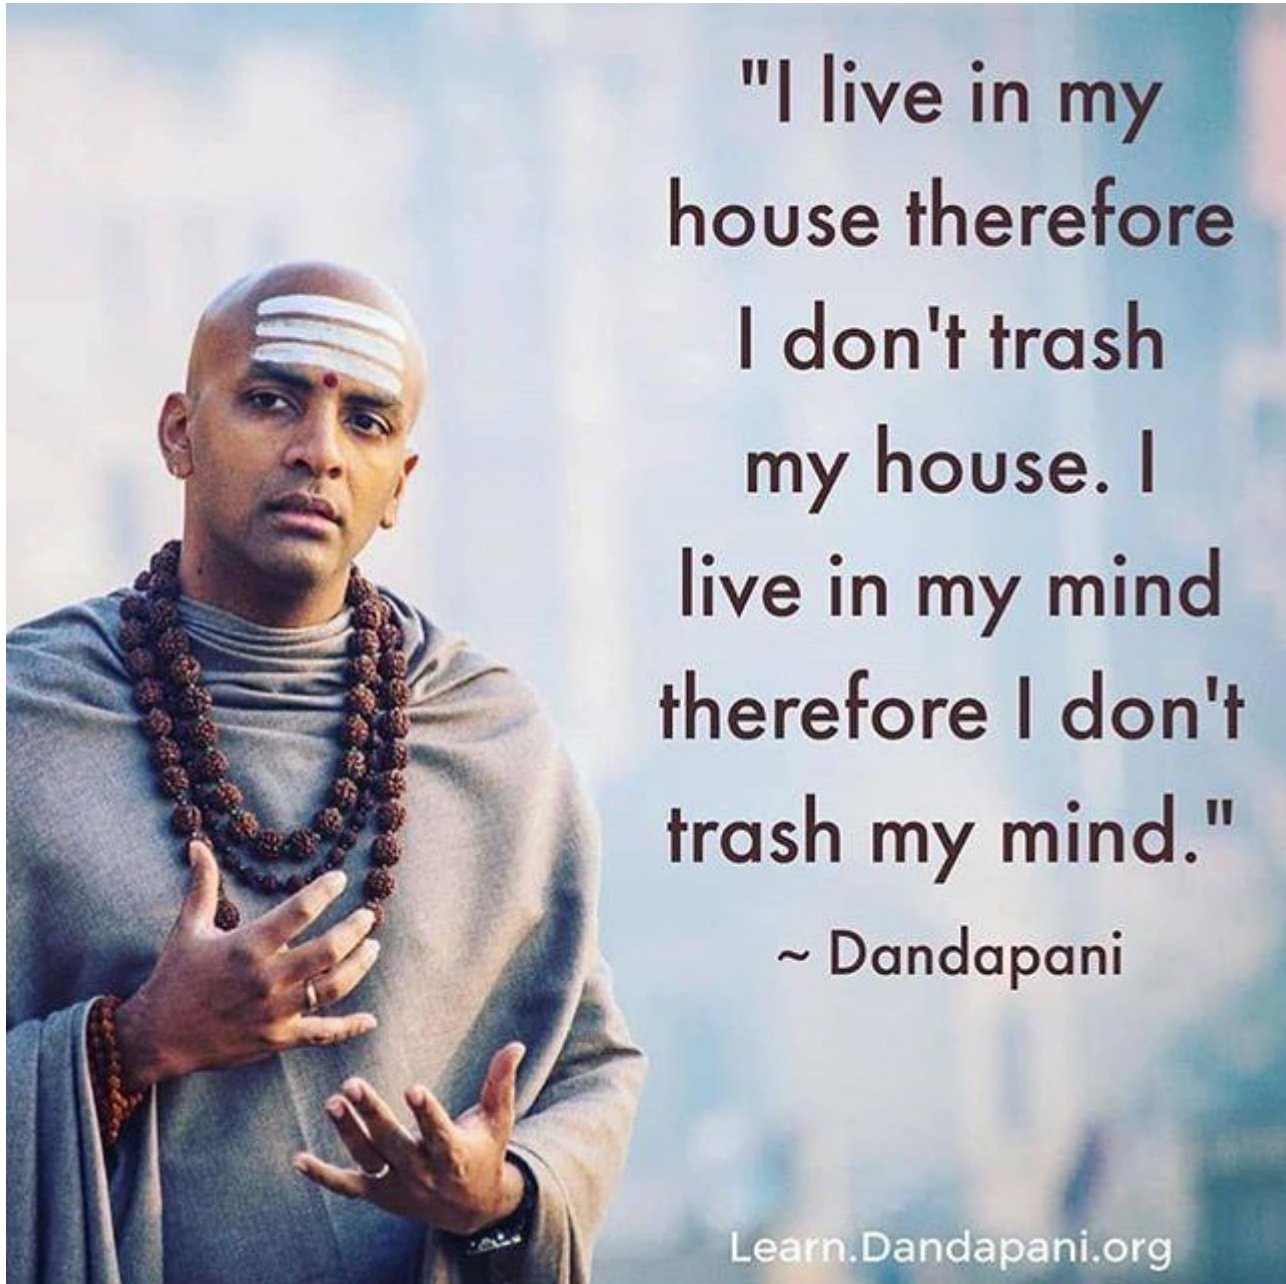

whatever means one could take for the sake of unwillingness to do his duty or affair may not be forgiven because the nature of all duty consciousness and it's only the fact that can be forgiven forever to give up and forget...

await a thing of beauty can become available to be yourself in a meanwhile, you can be silent and become aware of great saints like Buddha himself gave up treasures to live in peace without renouncing or sacrificing...

stories untold ever that could be part of this world cannot be bestowed to convey such messages that could harm anybody simply heart and soul may be changed in due course of nature...

return of dragon is possible in this world as the Almighty is interested in Leela that needs to be demonstrated owing to the law of attraction i.e., secrets/maya needs to be preserved for the very

existence of God himself does not appear in totality for anybody....

/-12-/

## neglect avoid forgiving

[Forgive forever to relinquish](#) one can avoid or neglect a bad situation because it is forgivable in the natural environment and forever it will be the nature of all events in one's lifetime.

One can forget many things in life and still have the same fun and frolic to cherish in the left-over lifetime in its life cycle...

One can forget any issue of the Almighty owing to the null effects faced by one who is the subject matter of the hour...

/-13-/

## ஆன்மிகம் கேள்விக்குறியா கேலிக்குறியா

## Residue retire remind

Wisdom-for-Self-Improvement: However one might try to avoid retirement age, it ought to come across one's life, and it is unavoidable as one's commitment in one's life. It is well known that, after all, it is a crucial phase in one's life, and it needs to be crossed over so that one's life becomes complete and one can achieve a total life.

**Wisdom-for-Self-Improvement:** it reminds me of a long-time residual memory that did not last long so to say that it does not retire from life and it prolongs for a while in life and stays for a while in life so that the wonder of life itself reminds me of the Flavors in life and so on...

it takes a while before finally settling in a place for rest and it makes

one tired and helpless because this is the way of life as it goes

without any cause and effect in the natural environment meaning that

"Lord Krishna says in Bhagwat Gita that we have brought nothing when

we are born and take back nothing when we die" and so on...

it is the time of one's life, and how he spends it is owing to the act of

Maya always leads the way of life whether it is a success or

failure we do not know its origin whatsoever means we do not know its

origin or its way of effectiveness even in the future ...

AS LONG AS ONE DOES HIS DUTY AND GOES THE EXTRA MILE TO FIND IT IS ONLY THE DUTIFUL THAT CAUSES THE EFFECT FOR A DAY TO BE FRUITFUL OR OTHERWISE, THE EFFECT COULD BE AS IF IT CARRIES OUT THE ACT OF MAYA OR LEELA OF THE ALMIGHTY IN ITS NATURAL COURSE OF TIME EITHER CHOSEN OR CASUAL ...

however, life may end up with the thoughts that exist ever to be wonder the world and its need spreading to be ever met with in this life and after many births that will follow we do not know anything about its nature and so on...

/-15-/

## பலி, பாவம், பரிகாசம்

One need not be worried about the end of time owing to nature's action. The cause of such an affair leads to a perpetual one as the universe exists forever and is infinite.

whenever one goes the extra mile in life he takes care of one thing that needs to be put forward so that the ultimatum does not impose any harm or unworthiness to mankind as such and more to be put forward as to the survival and success in every step one might take in his life time and so on ...

## **srushti of life, indeed unexpected**

The Bhagavatam is rich in rituals and rites to be performed by beings to God. By doing so, one can attain a virtual life(or eternal life) so that he need not be reborn to shoulder the burden of life and its causes in its life cycle, and so on.

As we are now aware of the life and either plants or animals or humans everything exists because of Srishti of life on earth and everywhere in the universe....

### **NY Times**

there is no end for Srishti to have been created already and the birth of every generation has to change according to the law of birth and death are known as the fate of every generation to come and it is already made out to show the effects of cause of all efforts taken by

## -: Arunachalam:-as good as god himself

God creates human being and vice versa that way human being becomes God and so on...

யான்றோக்கும் காலை

நிலன்றோக்கும்

நோக்காக்கால்

தான்றோக்கி மெல்ல நகும்.

Thanks to the very nature of being enlightened through the years of experience one has to go a long way to learn the teachings of the Almighty I think it may take decades to realize the facts disclosed to human beings whether it is a minimal or maximum amount of efforts put in by the individuals of course they are only dependents of Him and so on ...

Living in our hearts and soul!

Penetrates in every move!

He makes out every stage!

Spending every day with him!

No being without his grace!

Everything is like him!

He is found in every moment!

He is not lost because he is living!

I could hear his voice!

He made us, taught us, gave us!

He is there everywhere!

He is a super soul. Super good!

He is among us giving his blessings!

Everything is his creation!

We're only his dependents!

We see through his goodwill!

We say through his soul!

We walk with him and talk with him!

Our mind is his creation!

He lives with us!
